Address: 20 Mbane Street, Mfuleni

Cape Town, 7100

Professional Summary

Motivated and adaptable BSc Chemistry graduate with growing experience in full-stack web development and tutoring. I bring a unique combination of analytical laboratory expertise and practical software development skills. Experienced in building responsive web applications, alongside a strong foundation in data analysis and problem-solving. Passionate about continuous learning, technology, and using both scientific and digital skills to solve real-world problems.

Education

2024 **BSc Chemistry**
University of the Western Cape

2020 **Matric**
Manzomthombo S.S.S.

Experience

September 2025 – Present **Full Stack Web Developer | Life Choices Academy**

- Developing full-stack web applications using HTML, CSS, JavaScript, Vue.js, Node.js, Express.js, and MySQL.
- Collaborating in team-based projects to design and implement user-friendly interfaces and scalable systems.
- Applying best practices in version control, debugging, API integration, and code optimization.
- Gaining hands-on experience in full-stack architecture and modern development tools.
- Built and contributed to key projects including:
 - Frontend Development Project
 - Database & Backend Project
 - E-commerce Web Application

20 February 2026 – 20 March 2026 **Web Developer Intern (Virtual) | HexSoftware**

- Handled hazardous materials responsibly following proper waste disposal procedures to minimize environmental impact.
- Completed a virtual internship focused on front-end web development.

- Applied core web technologies (HTML, CSS, JavaScript) to create interactive and responsive designs.
- Strengthened problem-solving and project development skills.
- Built and deployed 3 projects:
 - Personal Portfolio Website
 - Web Music Player
 - Book Library Application

February 2025 – Present Tutor | Self employed

- Tutor Grade 8–12 learners in Mathematics and Physical Sciences.
- Simplify complex concepts to improve learner understanding and performance.
- Develop customized lesson plans based on individual student needs.
- Track and support academic progress through continuous assessment.

February 2023 – November 2024 Laboratory Assistant | University of the Western Cape

- Served as a reliable source of information for students seeking assistance or clarification on laboratory procedures or equipment use.
- Prepared reagents and solutions for laboratory testing and analysis.
- Conducted sample preparation, equipment maintenance, and experimental work.
- Performed literature reviews to support research projects.
- Trained first-year students on laboratory techniques and safety procedures.
- Ensured compliance with Good Laboratory Practice (GLP).
- Organized and analysed laboratory data efficiently.

Technical Skills

- | | |
|-------------------------------------|--|
| • HTML, CSS, JavaScript | • Full Stack Development |
| • Vue.js | • Version Control (Git - basic) |
| • Node.js & Express.js | • Microsoft Office (Excel, Word, PowerPoint) |
| • MySQL (Database Design & Queries) | • Oracle Apex and Oracle SQL |
| • Responsive Web Design | |

Key expertise

- | | |
|--|-----------------------------------|
| • Improvement and compliance | • Collaboration and communication |
| • Analytical laboratory skills | • Data Analysis |
| • Regulatory Knowledge | • Fieldwork experience |
| • Microsoft Office (Word, Excel, PowerPoint) | • Problem solving |
| | • Environmental analyst |

Competencies

- Communication skills: Able to write reports, communicate with a team, attention to detail and be able to communicate clearly with everyone I work with.
- Leadership skills: To lead innovative projects in chemical and environmental research, utilizing my analytical and project management skills to contribute to sustainable solutions

and scientific advancements. Experience guiding students and collaborating in team environments.

- Laboratory skills: Laboratory skills, quality control, hazard analysis, and critical points, good laboratory practice, analytical chemistry, attention to detail, able to deliver accurate results, development, research, following procedures, and customer awareness.
- Computer Literacy: Proficient in MS Office and foundational web development technologies.
- Professional: Problem solving, planning, and organizing, punctual, best presentation skills, results-driven, good leadership skills and can work well independently or in teams.
- Personal skills: Team player and able to lead a team, hands on, disciplined, honest, excellent in prioritizing and multitasking, able to work and perform under pressure.
